

BEITER MOLDBAKING,
GERMANY

Headlight Mold

Meta-Lax stress relief helped Beiter Moldmaking overcome a costly cracking problem for their European automotive customers in these intricate designed molds. *"Since we began implementing the Meta-Lax process, no more hardness cracks have appeared,"* said August Beiter.

YOUR STRESS RELIEF ALTERNATIVE

Consumer Product Mold

Meta-Lax stress relief has helped Minco Tool maintain an *"on time every time"* corporate policy. Besides saving 3-5 days stress relief time, many blocks are Meta-Lax treated after finish machining. *"This is to assure a completely stress relieved block,"* said Don Paulus.

MINCO TOOL & MOLD, OH

PARAGON DIE AND ENGINEERING, MI

Grill Mold

Meta-Lax stress relief has allowed Paragon Die to safely cut expenses and three days lead time yet still maintain their high standard of quality. *"We have virtually eliminated our heat treat stress relief costs without sacrificing quality,"* said Lewis Glashower.
